SCV-2

SPEED CONVECTION OVEN

Panasonic

STACKABLE UNIT

The Panasonic SCV-2 offers maximum flexibility as it easily fits onto a small worktop. In addition, you can double your capabilities thanks to the oven's stackability, allowing you to add a second oven, without using additional space, at no extra cost.

INVERTER TECHNOLOGY

Panasonic exclusive Twin Inverter technology, cooks food evenly with no cold spot, consistently providing optimum cooking results.

VENTLESS COOKING

Touch display for easy and fast use. Ventless cooking operation thanks to the built-in catalytic converter. Easy-to-clean inside cavity to reduce cleaning time and simplify maintenance.

MENU FLEXIBILITY

The SCV-2 SD card enables rapid menu changes and updates with up to 999 recipe and menu settings. Plus, operator's own food images can be uploaded to the control panel for quick and simple selection in use.

ACCESSORIES

The Panasonic SCV-2 comes with a number of accessories to offer versatility for any kitchen operation.

EASY MAINTENANCE

Easy to clean inside cavity and ceramic base tray reduces down-time and simplifies day to day maintenance.

Will Stratton-Morris, CEO, Caffè Nero UK

“As a premium coffee house brand, launching our new deli kitchen food menu was about offering our customers food as good as our coffee and which matched the unique environment our stores provide. It was essential we didn't compromise on the quality of the food we served, and that meant finding the right oven to prepare the food but which critically also matched the aesthetic of our coffee houses. The Panasonic SCV2 Speed Convection Oven jumped out as the ideal solution.

The Panasonic team understood our needs and invested time with our food development team and supported them through the creation of the new hot food menu. They helped us to achieve the best results from the oven and brought to life benefits it offered which also allowed us to develop items that we couldn't previously offer. ...”
